Exp. No: 5

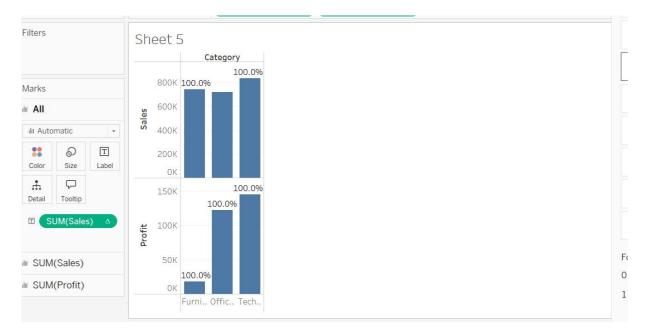

Table Calculations Percentage

AIM:

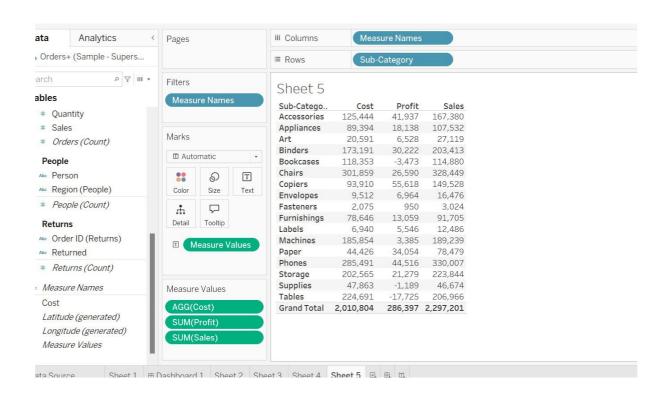

To perform calculations of the dataset using tableau.

OUTPUT:

Scores:

Calculating sum using formula

RFSUI T			
RESULT:	performing calculations of data have been	croated successfully using tables.	
RESULT: Thus _I	performing calculations of data have been	created successfully using tableau.	
RESULT: Thus _l	performing calculations of data have been	created successfully using tableau.	
RESULT: Thus _l	performing calculations of data have been	created successfully using tableau.	
RESULT: Thus _l	performing calculations of data have been	created successfully using tableau.	
RESULT: Thus _l	performing calculations of data have been	created successfully using tableau.	
RESULT: Thus _l	performing calculations of data have been	created successfully using tableau.	
RESULT: Thus _l	performing calculations of data have been	created successfully using tableau.
